PROJECT COPY

FIGURE NO.2

Tilt the head backwards as far as possible. Make sure that you do not tilt your head forward after completing the sitting chin tucks.

The face would be looking up upwards, as if looking at the sky.

Now in this backward tilted position, slightly turn your head right and left in turn.

Repeatedly turn the head right and left, while trying to tilt it further backward.

Return to the chin tuck position and repeat this exercise 10 times a day.
