Sub : Request for digitalization and automatization of Library.

Respected sir,

During the long vacation period due to the covid epidemic, the computers in the library were damaged and the installed ILMs was lost along with the data contained in it. So kindly take necessary steps to reinstall the software and automate the library.

Thanking you

Sincerely

Ajith Chanchran

Sub: Request for digitalization and automatization of Library.

Respected Sir/Madam,

In response to the library's request, as the computers have incurred damage, including the ILMS, please take necessary action to reinstall the software and initiate the library's automation process.

Yours sincerely

LIBRARY MANAGEMENT SOLUTION - KOHA

1. INTRODUCTION

1.1 BACKGROUND

The purpose of this chapter is to define the features of the Library Management Software, **Koha-Integrated Library Management Software**.

1.2 Koha

Koha Library Management software - Koha is the world's best open source Library Management Software. In the last 15 years, no other software came across to replace Koha Software in the library and information field. It is used by over 1 Million academic, public and special libraries across the world Koha. It is a fully-featured library management system, highly configurable and scalable to meet the needs of all types of libraries. Koha is a purpose-built, web-based library management system. A web browser is all that is required for members to access and staff to log in to administer Koha.

The main advantages are

- **Open Source**

Being open-source; Koha can integrate, and upgrade without any further legal and financial challenges.

- **World Platform**

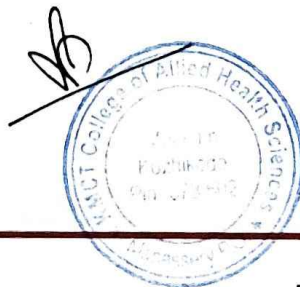

Koha is an internationally accepted software that fulfils all kinds of requirements of the library. Staff can get support from a large number of users from the Koha Global Community.

- **Customization**

Koha can customize that full fill the requirement of the library.

Standards-

Koha supports all global library standards in the catalogue, Classification, Acquisition etc.
